PROFESSIONAL SUMMARY

Detail-oriented aspiring Barista with a deep foundational knowledge of espresso extraction variables, milk texturing, and workflow efficiency. Proven track record of high-volume multitasking and exceptional service in retail environments. Eager to bring technical passion and a welcoming attitude to teams.

EDUCATION

Cybersecurity Graduate Certificate, Durham College	Expected 2026
Diploma of Computer Programming and Analysis, Durham College	2022 - 2025

SKILLS

Technical Coffee Skills	Espresso Extraction Theory, Dose & Yield Manipulation, Grind Size Calibration (Dialing-In), Milk Micro-foaming, Latte Art, Sensory Analysis.
Equipment Care	Group Head Backflushing, System Descaling, Conical Burr Cleaning & Maintenance.

EXPERIENCE

Camp Counselor	2019 - 2023
Moorelands Kids	<i>Toronto, Ontario</i>

- Managed groups of up to 20+ children simultaneously in a fast-paced environment, demonstrating the stamina, spatial awareness, and quick decision-making needed to efficiently navigate a crowded cafe floor during peak morning rushes.
- Maintained a calm, enthusiastic, and welcoming demeanor while resolving unexpected scheduling conflicts and interpersonal issues on the fly, proving the emotional intelligence and patience required to handle difficult customer interactions and complex drink modifications with grace.
- Accountable for enforcing strict daily safety protocols, monitoring dietary restrictions, and managing camp equipment, directly aligning with a cafe's strict food safety standards, station sanitation rules, and precise ingredient measurement requirements.

COFFEE PROJECTS

Independent Espresso Study & Recipe Formulation — Home Barista Setup

- Managed extraction variables involving grind size adjustment, dose weighting, and yield ratios to optimize flavor profiles across various beans and roast levels for recipe calibration and dialing.
- Maintain strict hygiene and preventative care schedules for a semi-automatic espresso machine, including back-flushing, group head cleaning, and grinder burr calibration.
- Developed proficiency in manual milk steaming to consistently produce microfoam suitable for high-quality latte art pouring.
